NASA TV to broadcast Gravity Probe-B launch Monday

NASA TV will broadcast live the 12:01 p.m. CDT launch of the Marshall Center-managed Gravity Probe-B spacecraft Monday. The launch will take place at Vandenberg Air Force Base in California. Gravity Probe-B will use four ultra-precise gyroscopes to test Einstein's 1916 theory that space and time are distorted by the presence of massive objects. Marshall Center Deputy Director Rex Geveden is the Gravity Probe-B program manager.

Hazardous waste training, 9-11 a.m. Tuesday, Morris Auditorium. 544-1614 for details

'Take Our Children to Work Day' T-shirts available for pickup 10 a.m.-2 p.m. Monday-Wednesday, Bldg. 4203 lobby

ODIN to upgrade servers

Security patches on all ODIN-controlled Marshall Center servers will be installed between 6-9 p.m. Monday. Each server will be unavailable for a few minutes while the installation is completed. A reboot will be required after installation. For more information, call 544-HELP, Option 7.

New security procedures, guidelines posted for Marshall

New security procedures and guidelines for the Marshall Center have been posted to the Integrated Document Library. Some of the changes are significant and all Marshall civil servants and contractors should become familiar with them. See "Inside Marshall."
